# EVERY TILES IS MASTERPIECE

For architecture and design, carving are an excellent planning and style resource, ideal for creating grand, striking effects; they're equally suitable for smaller spaces, offering versatility in terms of composition and material.

Clay features the coated effect typical of carving, with a slightly shiny effect on a matt surface, in a palette of dense colours, both warm and cool, ranging from white through three different shades of grey, from greige to taupe, and three colours with a contemporary soul cotto, mustard and petrol blue, suitable for bringing a touch of character to any setting.
